

## Product: Fire Dampers

<b>Product Name</b>	Fire Dampers
<b>Product type</b>	Mechanical Services
<b>Sub-Product type</b>	
<b>Trading name(s)</b>	
<b>Other name(s)</b>	
<b>Product description</b>	Fire dampers are used in buildings to help prevent the spread of a fire should one arise. These items are placed in the walls and ceilings of buildings, often within the duct system, to compartmentalise the space so that if fire penetrates on an area, it will not necessarily spread onto another area.
<b>Build element</b>	Internal and or external insulation made of Mill board / asbestos cement sheet. Treat as Friable unless bonded cement sheet in good condition.
<b>Product identification</b>	
<b>Known uses</b>	Insulation, fire retardant
<b>Asbestos fibre type</b>	Amosite (brown asbestos) Anthophyllite Chrysotile (white asbestos)
<b>Friable or Non-Friable</b>	Friable
<b>Known Supplier(s)</b>	
<b>Known place of manufacture</b>	
<b>Date / period of manufacture</b>	
<b>Building construction period</b>
